Woman Found Dead

Miss Angeline Smith, 65, Dies of Gas Poisoning

Mrs. Angeline Smith, 65 years old, was found dead in her room at 915 Fifth street yesterday, with gas escaping from the open jet of a stove.

She was seated in a chair. She had been cleaning the stove and probably had set down to rest. Coroner Nevitt finds death was accidental.

The body was discovered by Mrs. Margaret Bailey, a neighbor, who was attracted by the odor of the gas.
